USS Mass – United to Stop Slots in Massachusetts is the up-growth of concerned citizens, taxpayers, activists and statewide organizations across the political spectrum opposed to predatory gambling in the Commonwealth. We are a non-partisan organization that has been working diligently to organize and educate citizens and Legislators on the facts about the economic and social costs of legalizing predatory gambling in the Commonwealth. No state that has legalized predatory slot machines has solved their fiscal problems. Many states with legalized predatory gambling have far greater fiscal problems than Massachusetts.
